

Antonello Maruotti

| | | |
|---|--|--|
| CONTACT INFORMATION | Dipartimento di Giurisprudenza, Economia, Politica e Lingue Moderne Libera Università Maria Ss Assunta Via Pompeo Magno, 28 00192 Roma ITALY | <i>E-mail:</i> a.maruotti@lumsa.it <i>WWW:</i> http://www.lumsa.it/antonello-maruotti |
| RESEARCH INTERESTS | Hidden Markov Models, Random Effects Models for Longitudinal and Correlated Data, Finite Mixtures, Binary and Count Data Models, Environmental Statistics, Health Economics, Applied Econometrics. | |
| ACADEMIC APPOINTMENTS | Full Professor in Statistics Dipartimento di Giurisprudenza, Economia, Politica e Lingue Moderne Libera Università Maria Ss Assunta | November 2019 to present |
| | Adjuncted Professor in Statistics Department of Mathematics University of Bergen | October 2018 to present |
| | Visiting Research Fellow School of Computing - Faculty of Technology University of Portsmouth | July 2019 to present |
| | Associate Professor in Statistics Dipartimento di Giurisprudenza, Economia, Politica e Lingue Moderne Libera Università Maria Ss Assunta | October 2015 to October 2019 |
| | Senior Research Fellow Centre for Innovation and Leadership in Health Sciences University of Southampton | June 2015 to August 2017 |
| | Lecturer in Statistics Dipartimento di Scienze Politiche, Università di Roma Tre | December 2008 to October 2015 |
| | Lecturer in Medical Statistics Southampton Statistical Sciences Research Institute (S3RI) & School of Mathematics, University of Southampton | July 2012 to March 2015 |
| | Research Fellow Dipartimento di Istituzioni Pubbliche, Economia e Società, Università di Roma Tre | February 2008 to December 2008 |
| EDUCATION | Ph.D., Methodological Statistics, February 2008, Sapienza Università di Roma <ul style="list-style-type: none">• Thesis Topic: <i>Hidden Markov models for longitudinal observations</i>• Advisor: Professor Maurizio Vichi• Area of Study: Statistical Modelling and Classification M.Sc. Health Economics June 2004, Università di Roma “Tor Vergata” <ul style="list-style-type: none">• Thesis Topic: <i>Statistical modelling and economic evaluation in clinical trials</i>• Advisor: Dr Federico Spandonaro• Area of Study: Statistical Modelling and Economic evaluation M.S., Statistics and Economics, April 2003, Sapienza Università di Roma <ul style="list-style-type: none">• Thesis Topic: <i>New tools of intervention for the South</i>• Advisor: Professor Francesco Nucci• Area of Study: Statistics and Economics | |

PRESENTATIONS
AT SEMINARS

Robust hidden (semi-)Markov models with applications to social and financial data, Università Commerciale Luigi Bocconi, 2018.

Parsimonious hidden Markov models for analyzing multivariate ecological time series, University of Bergen, 2015.

Alternative solutions to the initial conditions problem in dynamic binary panel data models, Georg-August-Universität Göttingen, 2013.

Mixed hidden Markov models: an overview, Georg-August-Universität Göttingen, 2013.

Data tell us a story, are we good enough to model it? University of Southampton, 2012.

A hidden Markov model for clustering mixed linear and circular data with missing values, Université de Caen, 2011.

Mixed hidden Markov models: an overview, Université de Rouen, 2011.

“Fairness of National Health Service in Italy: a bivariate correlated random effects model, Institut für Statistik und Ökonometrie, Georg-August-Universität Göttingen, 2010.

“How individual characteristics affect university students drop-out: a semiparametric mixed approach to an Italian case study”. Dipartimento di Studi Internazionali - Università di Roma Tre, 2009

“EM algorithm in hidden Markov models (HMMs)”, Lund University, 2006.

“Switching Markov Regression models” , Lund University, 2006.

“Efficiency indicators in health economics”, Sapienza Università di Roma, 2006.

FUNDED PROJECTS Statistical modelling and inference to govern the epidemic (2021 - P.I.) - funded by MIUR, 56518.40 Euros.

Statistical modelling and inference for (high-dimensional) financial data (2020 - P.I.) - funded by Research Council of Norway, 598.000 NOK.

Nonlinear dependence and time dynamics in financial markets (2016, co-P.I.) - funded by Research Council of Norway, 200.000 NOK.

Identifying nurse-staffing requirements using the Safer Nursing Care Tool. Modelling the costs and consequences of real world application to address variation in patient need on hospital wards (2016, co-P.I.) - funded by NIHR, 559.230 Pounds.

Nurse staffing levels, missed vital signs observations and mortality in hospital wards: modelling the consequences and costs of variations in nurse staffing and skill mix. Retrospective observational study using routinely collected data (2015, co-P.I.) - funded by NIHR: 490.648 Pounds.

Metodi statistici a variabili latenti per lo studio di fenomeni ambientali - Latent class models for the analysis of environmental data (2015, P.I.) - funded by the University of Roma Tre: 7K Euros.

Analisi statistica e validazione automatica di dati mareografici mediante modelli miscuglio e variabili latenti markoviane a componenti spaziali e temporali - Statistical analysis and automatic validation of data by using mixture models and hidden Markov models with spatial and temporal components (2012, co-P.I.) - funded by ISPRA: 18K Euros.

Sviluppo di procedure standard per imputazioni di valori mancanti con finalità di validazione ed integrazione di dati estratti dalle reti di misura del servizio mareografico dell'ISPRA - Development of standard procedures for imputations of missing values aiming at validating and integrating data extracted from the ISPRA network (2009, co-P.I.) - funded by ISPRA: 20K Euros.

PARTICIPATION IN RESEARCH PROJECTS Environmental processes and human activities: capturing their interactions via statistical methods (2016, P.I. Daniela Cocchi) - funded by MIUR: PRIN 2015.

Modellazione e analisi statistica dell'impatto e del rischio per fenomeni ambientali con componenti spaziali e temporali (2008, P.I. Francesco Lagona) - funded by MIUR: PRIN 2006-2008.

Metodologie statistiche per la valutazione del sistema universitario (2007, P.I. Lea Petrella) - funded by Sapienza Università di Roma.

Overcoming the barriers and seizing the opportunities for Active Aging in Europe (2005, P.I. Sandro Turcio) - funded by EU Commission: fifth framework programme.

Size – Life Quality of Seniors Citizens in Relation to Mobility Conditions (2005, P.I. Lucia Martincigh) - funded by EU Commission: fifth framework programme

ASI – Assess implementations in the frame of the Cities-of-Tomorrow programme(2005, P.I. Lucia Martincigh) - funded by EU Commission: fifth framework programme

Nuove ipotesi di finanziamento e budgeting dei DSM e costi per il superamento degli OPG (2004, P.I. Federico Spandonaro) - funded by Agenzia per i Servizi Sanitari Regionali (ASSR), .

Progetto SINDIS: Modelli per un set di indicatori standardizzati per il monitoraggio per la spesa ed il finanziamento dell'assistenza sanitaria (2004, P.I. Francesco Saverio Mennini) funded by Istituto Superiore di Sanità (ISS).

PRIZES *2015 Davidson Honorable Mention Award for the Best Article in Volume 89 (2013) of the Journal of Retailing* ("Capturing the Evolution of Customer-Firm Relationships: How Customers Become More (or Less) Valuable Over Time" has been voted by the Advisory Board, Associate Editors, and Editorial Review Board as the best article in Volume 89)

EDITORIAL SERVICE *Biometrical Journal (Coordinating Editor: July 2015 to present)*

Plos One (Statistical Advisory Board: August 2016 to present)

METRON (Special Issue Editor: Hidden Markov Models: theory and applications)

Frontiers (Special Topic Editor: Towards an Understanding of Tinnitus Heterogeneity)

CONFERENCE
SERVICE

Organizer of the invited session: “Recent advances in dynamic clustering: Markov models and extensions”, CLADAG 2021, Firenze, Italy.

Organizer of the invited session: “Nowcasting the Covid-19 outbreaks: methods and applications”, SIS 2021, Pisa, Italy.

Organizer of the invited session: “Statistical models for directional and circular data”, SIS 2016, Salerno, Italy.

Organizer of the invited session: “Recent developments in latent variable models with environmental applications”, GRASPA 2015, Bari, Italy.

Local organising committee: GRASPA 2015 - Statistical Applications to Environmental Problems

Organizer of the invited session: “Hidden Markov Models: Theory Developments and Applications”, CLADAG 2011, Pavia, Italy.

Local organising committee: “Valutazione e Customer Satisfaction per la Qualità dei Servizi”, Roma, Università di Roma Tor Vergata, 12-13 Aprile 2007.

PHD STUDENTS
SUPERVISED

Orasa Anan (University of Southampton).
Topic: Capture-recapture data analysis; completed

Alberto Vidal-Diez (University of Southampton).
Topic: Capture-recapture data analysis; completed

Gianluca Mastrantonio (Università di Roma Tre).
Topic: Circular data analysis, latent class models and Bayesian statistics; completed

ACADEMIC
RESPONSIBILITIES

LUMSA, Roma, Italy
Member of the University Quality Committee (Membro del Presidio di Qualità di Ateneo)

Erasmus coordinator for the Dept. GEPLI

Member of the University Sport Committee (Membro della Commissione Sport di Ateneo)

TEACHING
EXPERIENCE

LUMSA, Roma, Italy

Lecturer

October 2015 to present

- Probability and Statistics, 1st year students
- Data mining and analytics, 2nd year students
- Statistical methods for social statistics , 2nd year students
- Econometrics, 3rd year students
- Statistical methods for finance, 4th year students

Pontificia Facoltà di Scienze dell’Educazione Auxilium,

Lecturer

October 2020 to present

- Statistics, 2nd year students

LUISS, Roma, Italy

Lecturer

October 2018 to present

- Statistics, Master in Corporate Finance and Banking (Luiss Business School)
- Econometrics and Statistics, Master in General Management (Luiss Business School)
- Econometrics, Master in Big Data (Luiss Business School)
- Time-series Econometrics, Master in Big Data (Luiss Business School)

Teaching Assistant

September 2008 to 2012

- Statistics, 1st year students

Università di Roma Tre, Roma, Italy

Lecturer

March 2010 to September 2016

- Statistics, 1st year students
- Statistical Modelling, 3rd year students

Teaching Assistant

February 2008 to February 2010

- Statistics, 1st year students

Università di Roma "Tor Vergata", Roma, Italy

Teaching Assistant

September 2008 to July 2009

- Statistics, 1st year students

Teaching Assistant

September 2004 to July 2006

- Mathematical finance, 1st year students

Lecturer

September 2004 to July 2005

- Quantitative instruments for economics and management, graduate students

University of Southampton, Southampton, UK

Lecturer

February 2013 to 2016

- Short Course - Advanced Statistical Methods in Epidemiology

Lecturer

June 2013 to 2016

- Short Course - Linear Mixed Models with Applications in Medicine

Lecturer

November 2013 to 2016

- Short Course - Generalized Linear Mixed Models with Applications in Medicine

Lecturer

September 2012 to June 2014

- Statistical computing (MATH6152/MATH6030)

Teaching Assistant

September 2012 to June 2014

- Statistics for Engineering Systems (MATH6115)

Sapienza Università di Roma, Roma, Italy

Teaching Assistant

September 2005 to 2015

- Multivariate Statistics, 3rd year students
- Inferential statistics, 2nd year students
- Statistics, 1st year students

Lecturer

September 2007 to 2012

- Statistics in medicine, 5th year students

MEMBERSHIPS

- Southampton Statistical Sciences Research Institute (S3RI)
- European Research Consortium for Informatics and Mathematics (ERCIM), Working Group on Mixture models
- Italian Statistical Society
- Research Group for Statistical Applications to Environmental Problems
- Classification and Data Analysis Group of the Italian Statistical Society

12/06/2021
