## SHORT BIO

Fabrizio Montecchiani received his PhD in Information Engineering at the University of Perugia in 2014. He is currently an Assistant professor (with tenure track - RTDb) at the University of Perugia, Engineering Department. Since 2019, he is the coordinator of the Large-scale Data Analysis & Visualization Lab<sup>1</sup>, the local node at the University of Perugia of the national CINI Big Data Laboratory. In 2021, he was the recipient of the Best Young Italian Researcher in Theoretical Computer Science Award, given by the Italian Chapter of the European Association for Theoretical Computer Science (IC-EATCS).

During his PhD, he has been a visiting PhD student at the Brain Research Center of the National Tsing Hua University of Taiwan, and a visiting PhD student at the University of Tübingen in Germany. Afterwards, he has been a visiting Postdoc fellow at the University of Waterloo in Canada.

His main research interests lie within the fields of graph algorithms and graph drawing, computational geometry, information visualization and visual analytics for Big Data, and algorithm engineering. On the above topics he wrote a remarkable number of research papers, he collaborated with many international researchers, he participated to numerous grants, and he developed software systems that have been commercialized by academic spin-off companies.

He has teaching experience at the undergraduate, graduate and professional level, as well as in supervising students.

From 2011 to 2014, he also collaborated as a software engineer with the academic spin-off Vis4 Srl, an ICT company providing advanced solutions for the visual analysis of complex data sets. In 2017, he co-founded the academic spin-off CONTACTTI yi-zhong-yi Srl, a company made up by engineers and linguists that offers advanced ICT solutions and smart technologies to promote and develop tourism in Italy, with a particular focus on Chinese tourists.

## CONTACTS

**Residence:** Via Luigi Settembrini 17, Corciano (PG), 06073, Italy.

**Office:** Dipartimento di Ingegneria, Università degli Studi di Perugia  
Via G. Duranti 93, 06125 Perugia, Italia.  
Tel. +39-075-5853794, Fax. +39-075-5853654

**e-mail:** [fabrizio.montecchiani@unipg.it](mailto:fabrizio.montecchiani@unipg.it), [fabrizio.montecchiani@gmail.com](mailto:fabrizio.montecchiani@gmail.com)

---

## CURRENT POSITION

Since 2018, I am Assistant professor (with tenure track - RTDb) at the University of Perugia, Engineering Department (DI).

---

## PREVIOUS POSITIONS

From 2014 to 2018, I have been a post-doc research fellow at the University of Perugia, Engineering Department (DI). From 2010 to 2014, I have been a PhD student in the same department.

## EDUCATION

- I received my PhD (European Doctorate Program) in Information Engineering at the University of Perugia in 2014.
    - Thesis title: “Crossing Complexity in Graph Drawing”
    - Advisors: Prof. Walter Didimo, Prof. Giuseppe Liotta
    - Committee: Prof. Roberto Grossi, Prof. Michael Kaufmann, Prof. Giuseppe Liotta
  - I received my Master’s Degree (Laurea Specialistica) in Computer and Telecommunications Engineering at the University of Perugia in 2010. The thesis won the national prize “*Premi di Laurea Giorgio Santini 2010*” for the best thesis in Computer Engineering. The software system developed within the thesis activity has been further engineered by the academic spin-off Vis4, and in 2011 the software became a commercial product.
    - Thesis title: “Analysis, design and development of a software system for the visual analysis of financial crime networks”
    - Advisor: Prof. Walter Didimo
    - Final mark: 110/110 cum laude
- 

## AWARDS AND HONORS

- September 2021. Recipient of the Best Young Italian Researcher in Theoretical Computer Science Award, given by the Italian Chapter of the European Association for Theoretical Computer Science (IC-EATCS).
- September 2021. Best Paper Award at GD 2021.
- Since 2019 and ongoing. Coordinator of the Large-scale Data Analysis & Visualization Lab<sup>2</sup>, the local node at the University of Perugia of the national CINI Big Data Laboratory.
- July 2018. Italian national scientific habilitation for the role of Associate Professor of Information Engineering.
- June 2016. Winner of the “2016 Algorithms Travel Award” sponsored by Algorithms, an international open access journal, which provides an advanced forum for studies related to algorithms and their applications, published quarterly online by MDPI.

---

<sup>2</sup><https://bigdata.unipg.it>

- February 2011. Winner of the national prize “Premi di Laurea Giorgio Santini 2010” for the best thesis in Computer Engineering.
- 

## RESEARCH EXPERIENCE ABROAD

**September - October 2015** Visiting Postdoc fellow at the David R. Cheriton School of Computer Science, University of Waterloo, Canada. During this period I collaborated with Prof. Therese Biedl and joined the Algorithms and Complexity group.

**January to April 2013** Visiting PhD student at the Wilhelm-Schickard-Institut für Informatik, University of Tübingen, Germany. During this period I joined the group leaded by Prof. Michael Kaufmann, whose activity is focused on the following research fields: Graph Drawing, Information Visualization, Computational Geometry, Algorithms and Complexity, Combinatorics Optimization.

**November 2012** Visiting PhD student at the Brain Research Center of the National Tsing Hua University of Taiwan. During this period I worked under the supervision of Prof. Ann-Shyn Chiang, on a project whose goal was the visual analysis of biological data.

---

## RESEARCH INTERESTS

My research interests lie within the following fields.

- Graph algorithms and graph drawing.
- Computational geometry.
- Information visualization and visual analytics for Big Data.
- Algorithm engineering and system development for Big Data.

On the above topics I collaborated with several international researchers, I participated to numerous grants, and I developed software systems that have been commercialized by academic spin-off companies.

---

## GRANTS

- *Principal Investigator* of the scientific project “Analisi e progetto di modelli, processi e algoritmi per la risoluzione di problemi di ottimizzazione su grafi legati alla mobilità elettrica e per l’analisi visuale dei dati”. Contract (35,000 EUR) between the Department of Engineering of the University of Perugia and the company SolarEdge e-Mobility SpA, within the regional program POR FESR Umbria 2014-2020.
  - *Principal Investigator* of the scientific project (8,000 EUR) “Modelli, algoritmi e sistemi per la visualizzazione di grafi e reti” funded by the “Ricerca di Base 2019” program of the Engineering Department - University of Perugia.
  - *Participant* of the MIUR PRIN 2017 project (100,000 EUR) “AHeAD: efficient Algorithms for HArnessing networked Data”, prot. 00120174LF3T8.
  - *Participant* of the scientific project “Analysis, design, and development of algorithms and interfaces for the visual analysis of data within the Knowledge Discovery system PiattaformaPA and B2”. Contract (35,000 EUR) between the Department of Engineering of the University of Perugia and the company ETI3 Srl, within the regional program POR FESR Umbria 2014-2020.
  - *Participant* of the scientific project “INFINITY - Models and algorithms for the visual representation of information on the driving styles of a big dataset of drivers”. Contract (30,000 EUR) between the Department of Engineering of the University of Perugia and the company Sistematica SpA, within the regional call, Innovative Actions, FESR 2007-2013.
  - *Participant* of the MIUR PRIN 2012 project (55,000 EUR), “AMANDA: Algorithmics for MAssive and Networked DAta”, prot. 2012C4E3KT 001.
- 

## EDITORSHIPS

- Guest Editor of the special issue on “Information Processing and Management for Large and Complex Networks” of Future Internet.
- Guest Editor of the special issue on “Graph Drawing Beyond Planarity” of the Journal Of Graph Algorithms and Applications.

## PROGRAM COMMITTEES

- Program committee member of the 48<sup>th</sup> International Workshop on Graph-Theoretic Concepts in Computer Science (WG 2022). To be held in Tübingen, in June 2022. Website: <https://algo.inf.uni-tuebingen.de/wg2022/>
- Program committee co-chair of the 38<sup>th</sup> European Workshop on Computational Geometry (EuroCG 2022), together with Emilio Di Giacomo (UniPG). To be held in Perugia, in March 2022. Website: <https://eurocg2022.unipg.it/>
- Program committee member of the 2<sup>nd</sup> Italian Workshop on Visualization & Visual Analytics (ITAVIS 2020), Ischia (Italy), September 28 - October 2, 2020. Website: <https://sites.google.com/diag.uniroma1.it/itavis>
- Program committee member of the 28<sup>th</sup> International Symposium on Graph Drawing & Network Visualization (GD 2020), Vancouver (Canada), September 15-18, 2020. Website: <https://gd2020.cs.ubc.ca/>
- Program committee member of the 25<sup>th</sup> International Symposium on Graph Drawing & Network Visualization (GD 2017), Boston (USA), September 25-27, 2017. Website: <https://gd2017.ccis.northeastern.edu/>
- Program committee member of the Graph and Network Visualization Special Session hosted by the 7<sup>th</sup> International Conference on Information, Intelligence, Systems and Applications (IISA 2016), Chalikidiki (Greece), July 13–15, 2016.

## ORGANIZING COMMITTEES

- Organizing committee co-chair of the 38<sup>th</sup> European Workshop on Computational Geometry (EuroCG 2022), together with Emilio Di Giacomo (UniPG). To be held in Perugia, in March 2022. Website: <https://eurocg2022.unipg.it/>
- Organizer of the Dagstuhl Seminar 21062 on “Parameterized Complexity in Graph Drawing”, together with Robert Ganian (TU Wien, AT), Martin Nöllenburg (TU Wien, AT) and Meirav Zehavi (Ben Gurion University – Beer Sheva, IL). July 18–23, 2021. Website: <https://www.dagstuhl.de/en/program/calendar/semhp/?semnr=21293>
- Organizing committee member of the 28<sup>th</sup> European Workshop on Computational Geometry (EuroCG 2012), Assisi (Italy), March 19–21, 2012.

## INVITED TALKS AND LECTURES

- Invited talk at the 22<sup>nd</sup> Italian Conference on Theoretical Computer Science (ICTCS 2021), 14 September 2021.
  - Invited lecture at the Technische Universität Wien, Austria, 15 January 2019.
  - Invited lecture at the Universität zu Köln, Germany, 20 November 2018.
  - Invited lecture at the FernUniversität in Hagen, Germany, 3 July 2017.
  - Invited talk at the NII Shonan Meeting Seminar 089 “Algorithmics for Beyond Planar Graphs”, Shonan Village Center, Japan, 27 Nov. – 1 Dec. 2016.
  - Invited talk at the 3<sup>rd</sup> meeting of the ANR Project Embedded Graphs and their Oriented Structures (EGOS), Bordeaux, France, 5 – 7 Nov. 2014.
- 

## INT’NL CONFERENCES AND WORKSHOPS ATTENDED

The following is a list of attended conferences and workshops in the last five years. For each entry, the symbol \* indicates that I gave a talk.

- 2021: 29<sup>th</sup> International Symposium on Graph Drawing and Network Visualization (GD 2021), Tübingen, Germany; \*22<sup>nd</sup> Italian Conference on Theoretical Computer Science (ICTCS 2021), Bologna, Italy (held online); Dagstuhl Seminar 21293 “Parameterized Complexity in Graph Drawing”, Schloss Dagstuhl, Germany; 33<sup>rd</sup> Canadian Conference on Computational Geometry (CCCG 2021), Halifax, Nova Scotia, Canada (held online); \*17<sup>th</sup> Algorithms and Data Structures Symposium (WADS 2021), Halifax, Nova Scotia, Canada (held online).
- 2020: 28<sup>th</sup> Int. Symposium on Graph Drawing & Network Visualization (GD 2020), Vancouver, Canada (held online); \*45<sup>th</sup> International Symposium on Mathematical Foundations of Computer Science (MFCS 2020), Prague, Czech Republic (held online); \*14<sup>th</sup> International Conference and Workshop on Algorithms and Computation (WALCOM 2020), Singapore (held online); NII Shonan Meeting Seminar 171 “Trends and Perspectives for Graph Drawing and Network Visualization”, Shonan Village Center, Japan.

- 2019: \*27<sup>th</sup> Int. Symposium on Graph Drawing & Network Visualization (GD 2019), Prague, Czech Republic; \*1<sup>st</sup> Italian Workshop on Parallel and High Performance Computing Technologies, Bologna, Italy; Workshop on Graph Drawing and Network Visualization 2019 (GNV 2019), Heiligkreuztal, Germany; Dagstuhl Seminar 19092 “Beyond-Planar Graphs: Combinatorics, Models and Algorithmics”, Schloss Dagstuhl, Germany; Bertinoro Workshop on Graph Drawing 2019 (BWGD 2019), Bertinoro, Italy.
- 2018: \*26<sup>th</sup> Int. Symposium on Graph Drawing & Network Visualization (GD 2018), Barcelona, Spain; Workshop on Graph Drawing and Network Visualization 2018 (GNV 2018), Heiligkreuztal, Germany; \*44<sup>th</sup> Int. Workshop on Graph Theoretic Concepts in Computer Science (WG 2018), Cottbus, Germany; Bertinoro Workshop on Graph Drawing 2018 (BWGD 2018), Bertinoro, Italy.
- 2017: \*25<sup>th</sup> Int. Symposium on Graph Drawing & Network Visualization (GD 2017), Boston, USA; Workshop on Graph Drawing and Network Visualization 2017 (GNV 2017), Heiligkreuztal, Germany; Bertinoro Workshop on Graph Drawing 2017 (BWGD 2017), Bertinoro, Italy.
- 

## SCIENTIFIC REVIEW ACTIVITY

**Government Review Boards:** Natural Sciences and Engineering Research Council of Canada (NSERC) , reviewer of Discovery Grant proposals.

**International journals (alphabetical order):** Algorithmica; Computer Graphics Forum; Computational Geometry: Theory and Applications; Decision Support Systems; Discrete Applied Mathematics; Discrete Mathematics, Discrete Mathematics and Theoretical Computer Science; Discussiones Mathematicae Graph Theory; Filomat; IEEE Access; Information Sciences; Theoretical Computer Science; Journal of Computational Geometry; Journal of Graph Algorithms and Applications; Journal of Visual Languages and Computing.

**International conferences (alphabetical order):** ESA (2021); EUROCG (2012, 2018, 2020); GD (2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021); ICALP (2014); ISAAC (2011, 2016, 2017, 2021); PACIFICVIS (2012, 2015, 2016, 2018, 2019, 2020); SEA (2018); SOCG (2017, 2020); SODA (2019); SWAT (2016, 2020); VIS (2021); VISIGRAPP (2012); WALCOM (2015, 2018, 2020, 2021); WG (2019, 2020).

---

## ACADEMIC AND PUBLIC SERVICE

**2021 – today** Member of the Selection Committee and of the Personal Interviews and Personal Interview Panel of the Doctoral Program “Logics for Computer Science - LogiCS@TUWien” at the Vienna University of Technology.

**2020 – today** Member of the faculty board of the Ph.D. course in Industrial and Information Engineering at the University of Perugia.

**2019 – 2020** Member of the faculty board of the Ph.D. course in Ethics of Communication, Scientific Research and Innovation Technology at the University of Perugia.

**2019 – today** Director of the CINI Big Data Laboratory node at the University of Perugia<sup>3</sup>.

---

## TEACHING EXPERIENCE

The following teaching activity took place at the Department of Engineering at the University of Perugia.

### Master degree

- Course **Information Visualization and Visual Analytics**  
Year: 2020/2021 – present  
Degree: Master’s Degree in Computer and Robotics Engineering (Laurea Magistrale in Ingegneria Informatica e Robotica)  
Role: Co-Teacher (9CFU, 12 of 72 hours).
- Course **Computation Models and Advanced Algorithms**  
Year: 2020/2021 – present  
Degree: Master’s Degree in Computer and Robotics Engineering (Laurea Magistrale in Ingegneria Informatica e Robotica)  
Role: Co-Teacher (9CFU, 12 of 72 hours).
- Course **Software Engineering**  
Year: 2019/2020 – present  
Degree: Master’s Degree in Computer and Robotics Engineering (Laurea Magistrale in Ingegneria Informatica e Robotica)  
Role: Teacher (6CFU, 48 hours).

---

<sup>3</sup><https://www.conorzio-cini.it/index.php/it/labbigdata-home/>

- Course **Big Data Management**  
Year: 2017/2018 – present  
Degree: Master’s Degree in Computer and Robotics Engineering (Laurea Magistrale in Ingegneria Informatica e Robotica)  
Role: Teacher (6CFU, 48 hours).
- Course: **Lab of Information Visualization**  
Year: 2011/2012 – 2019/2020  
Degree: Master’s Degree in Computer and Robotics Engineering (Laurea Magistrale in Ingegneria Informatica e Robotica)  
Role: Lab Teacher (12 hours).

### Bachelor degree

- Course: **Analysis II**  
Year: 2011–2012  
Degree: Bachelor’s Degree (Laurea Triennale)  
Role: Tutor.
- Course: **Geometry**  
Year: 2011–2012  
Degree: Bachelor’s Degree (Laurea Triennale)  
Role: Tutor.

### Post-graduate

- Course: **Models and Technologies for Big Data**  
Year: 2016, 2017, 2021  
Degree: Doctorate Course in Industrial and Information Engineering (for PhD candidates only)  
Role: Teacher (20 hours).
- Course **Visual analytics - Laboratory**  
Year: 2017  
Degree: Post-graduate Master (Master di II° livello) in “Data Science”<sup>4</sup>  
Role: Teacher (12 hours).
- Course **ICT for Smart Cities**  
Year: 2015  
Degree: Post-graduate Master (Master di II° livello) in “Designing Smart Cities”<sup>5</sup>  
Role: Invited Lecturer.

---

<sup>4</sup><http://masterds.unipg.it/>

<sup>5</sup><http://www.smartcities.unipg.it/>

I tutored and co-tutored several students during their Bachelor or Master thesis.

The following teaching activity took place at the ITS Umbria Academy<sup>6</sup>.

- Course: **Big Data Management and Analytics**  
Year: 2021  
Role: Teacher (25 hours).
- Course: **Big Data Management and Analytics**  
Year: 2020  
Role: Teacher (50 hours).
- Course: **Big Data Management and Analytics**  
Year: 2019  
Role: Teacher (25 hours).

The following teaching activity took place at the ECIPA Umbria<sup>7</sup>, an association that organizes training courses at national and European levels.

- Course: **Development of Software Systems**  
Year: 2018  
Role: Teacher (58 hours).
- Course: **Big Data Management**  
Year: 2017  
Role: Teacher (62 hours).

The following teaching activity took place at the Tiber Umbria Comett Education Programme<sup>8</sup>, an association between Universities and Enterprises created in 1992 under a former Comett project. The main activity of TUCEP is the organization and management of training courses at national and European levels.

- Course: **Development of Software Systems**  
Year: 2015  
Role: Teacher.

## **PROFESSIONAL EXPERIENCE & TECHNOLOGY TRANSFER**

In December 2017, I co-founded CONTATTI yi-zhong-yi Srl, a spin-off company of the University of Perugia. The company is made up by engineers and linguists and it is aimed at offering advanced ICT solutions and smart technologies to promote and develop tourism in Italy. In particular, the company has Chinese tourists as main target for its solutions and services. The company closed at the end of 2020, also due to the consequences of the COVID-19 pandemic on international tourism.

From 2011 to 2014, I collaborated as a Software Engineer with the academic spin-off Vis4 Srl, an IT company providing advanced solutions for the visual analysis of complex data sets. Vis4, founded in 2009, established relevant contracts and collaborations with national and international companies and institutions, like the Financial Intelligence Agency (AIF) of the San Marino Republic, and Fabrica, the advertisement company of the Benetton group. Vis4 is also one of the founding member companies of the GGB Consortium (Genomics, Genetics, and Biology), founded in the 2010 with the financial support of the Umbria Region; GGB is a center of technological excellence, both in the national and in the international contexts. In January 2014 I have been appointed as administrator of the company, and I left this position in December 2014. In November 2014, all the academic members of Vis4 have sold their shares to private entrepreneurs.

In 2013 I collaborated as consultant with the Umbria Region for the assessment of the regional community network.

---
