

PROF. VITTORIO CALABRESE
CHAIR OF CLINICAL PATHOLOGY AND CLINICAL BIOCHEMISTRY
DEPARTMENT OF BIOMEDICAL AND BIOTECHNOLOGICAL SCIENCES
SCHOOL OF MEDICINE, UNIVERSITY OF CATANIA

CURRICULUM VITAE

Prof. Vittorio Calabrese, Graduated in Medicine on 1984 at the University of Catania, after specialization in Neurology, on 1988 at University of Catania, since 1996 was Researcher at the Department of Biochemistry, School of Medicine, University of Catania. By 2001 to date Prof. Calabrese is a Professor of Clinical Biochemistry at the School of Medicine and Surgery and actual Director of School of Specialization in Clinical Pathology and Clinical Biochemistry, University of Catania, University of Messina and University of Palermo. He is member of the Editorial Board of several high peer reviewed journals including: Journal of Neuroscience Research; Neurochem Research; Antioxidant Redox Signaling; Journal Neurochemistry; Free Radical Biology Medicine; Current Neurovascular Disorders. He has been reviewer of national projects (Italian MIUR), and many foreign projects for foreign institutions. He has been member of the ASN Commission (05/E1) of the Italian MIUR for the year 2013 and 2014. His research focuses on the role of free radicals and antioxidants in human disease, particularly Alzheimer's disease and other brain disorders. His interest in identifying the most important antioxidants in the human diet and in developing novel antioxidants has critical bearing on treating human diseases and understanding how diet might cause or prevent them. Areas of his research interests includes role of Oxidative Stress and Mitochondrial dysfunction in Aging, Neurodegenerative disorders and Longevity; Proteomics and redox proteomics, Heat shock signal pathway Hormesis and Vitagenes in Neurodegeneration. The results of his researches have been reported in over 200 scientific papers published in outstanding international journals and widely cited (around 12522 total citations, around 5000 citations of the 10 most cited articles), for an HI value of 66 (ISI). He has deposited one patent (Nr. WO 2004/07883 A1 of 10.9.2004) for the use of curcumin and its derivatives in the treatment neurodegenerative disorders.

POSITION : FULL PROFESSOR OF CLINICAL BIOCHEMISTRY SCHOOL OF MEDICINE, UNIVERSITY OF CATANIA, DEPARTMENT OF BIOMEDICAL AND BIOTECHNOLOGICAL SCIENCES, University of Catania. Viale Andrea Doria, 6. 95125 – Catania - *E-mail:* calabres@unict.it.

Studies: 9/4/1984 **Degree in Medicine**, *with magna cum laude*, University of Catania. Thesis: Modifications of brain lipid metabolism during aging.
8/7/1988 **Specialization in Neurology**, *with magna cum laude*, University of Catania. Thesis: Oxidative stress in central nervous system.

Academic Positions:

Chairman and Director, School of Clinical Pathology and Clinical Biochemistry, University of Catania, University of Messina.

Professor of Clinical Biochemistry, CL Magistrale in Medicine, University of Catania.

Professor of Clinical Biochemistry, CL Professioni sanitarie, University of Catania.

Professor of Clinical Biochemistry, International Doctorate Basic and applied Biomedical Sciences .

Awards and Distinctions:

1987 **Post-Doctoral fellow in Neurobiology** at the New York University Medical School, (N.Y.);

1989 **Post-Doctoral fellow in Neuropharmacology** at the Thomas Jefferson University Medical School (Philadelphia, PA.);

2000-2005: **Visiting Professor** University College London, Department of Neurochemistry, funded by Wellcome Trust Grant on “The role of antioxidants in L-DOPA induced damage to the Substantia Nigra”.

i. **Visiting Professor** Northwick Park Institute for Medical Research, Department of Surgical Research, University of London;

ii. **Visiting Professor** University of Kentucky, Department of Chemistry.

iii. **Visiting Professor** Blanchette Rockefeller Neuroscience Institute, West Virginia University (MD).

iv. **Coordinator** Euro-Mediterranean- Academy of Antiaging Medicine

v. **Visiting Professor** Biomedical Research Centre, University of Dundee (UK).

vi. **Visiting Professor** Barshop Institute for Aging and Longevity Studies and Department of Physiology, University of Texas Health Science Center at San Antonio, TX.

Editorial Board:

1. Journal of Neuroscience Research
2. Neurochem Research
3. Antioxidant Redox Signaling
4. Journal Neurochemistry
5. Free Radical Biology Medicine
6. Current Neurovascular Disorders.
7. Antioxidant Redox Signaling
8. Journal Neuroscience Research
9. Faseb Journal
10. Journal of Biological Chemistry

11. Mechanisms of Ageing and Development

Field of Scientific Interest

1. Role of Oxidative Stress and Mitochondrial dysfunction in Aging, Neurodegenerative disorders and Longevity
2. Nutritional Antioxidants and Modulation of cellular redox state.
3. Proteomics and redox proteomics
4. Heat shock signal pathway and brain cell stress response
5. Alcohol metabolism and alcohol-related pathology
6. Gasobiology of the CNS: Role of Nitric Oxide (NO), Carbon Monoxide (CO) and Hydrogen sulfite (H₂S) in the regulation of gene expression
7. Carbon monoxide and organ transplantation
8. Redox Modulation of Vitagenes by endogenous compounds (Carnosine, Carnitines, Hormones) by polyphenols as target for novel therapeutic interventions in neurodegeneration and cancer.
9. Hormesis
10. Healthy Medicine e Medicina mitocondriale
