DISSEMINATION AND OUTREACH

Over the years, I have been giving talks, lectures and conferences in several European countries, Japan, and the US for public officials, experts and politicians on topics related to my methodological and substantive scientific interests. I have presented my research at the European parliament, to the EU Commission and the EEAS. I have attended several press conferences to present my work, especially in connection with my role as scientific advisor of the German Marshall Fund Transatlantic Trend Survey over the years 2002-2014 and in the last few years out of my collaboration with the Istituto Affari Internazionali for the yearly survey on Italian public opinion and foreign policy the UNISI-LAPS conduct for IAI. I have been interviewed on topical issues related to European integration, foreign policy and public opinion on Italian and foreign radios, for Italian and international newspapers and, rarely, on Italian TV. I have prepared reports for the Ministry of Defence, the Ministry of Foreign Affairs, the World Food Program, the European Union National Institutes for Culture (EUNIC), the European Asylum Support Office (EASO), PRIMA (Partnership for Research and Innovation in the Mediterranean Area) and the EEAS via the Cultural Relations Platform.
